

7th Texas Energy Forum 2026

August 26 & 27, 2026
Petroleum Club
Houston, TX

Gold Partners

Bronze Partners

Dear Colleague,

It is my pleasure to invite you to the 7th Annual Texas Energy Forum 2026, organized by U.S. Energy Stream on August 26 & 27, 2026 at the prestigious Petroleum Club of Houston, TX.

This year's Theme: ***AI Runs on Texas Energy: How Texas and Alberta Are Powering the AI Revolution***

Artificial Intelligence is transforming the global economy and redefining the future of industry, manufacturing, finance, defense, and technology. Yet behind every AI breakthrough lies a fundamental reality: AI runs on energy.

Texas stands at the center of this revolution. As the nation's energy capital and a global innovation hub, Texas is uniquely positioned to fuel the AI economy through its diverse energy portfolio—including nuclear, natural gas, oil, solar, wind, battery storage, and emerging technologies. Together with Alberta, one of North America's leading energy-producing regions, Texas is helping provide the energy security, infrastructure, and innovation required to power the next generation of economic growth.

From Houston, the energy capital of the world, the Texas Energy Forum brings together Members of U.S. Congress, senior government officials, and leaders from the energy, technology, manufacturing, and financial sectors for candid, off-the-record discussions on the energy, infrastructure, and technological advancements required to power the AI revolution and strengthen American competitiveness. Key discussions will focus on the intersection of AI and energy, data center growth, electric utilities, transmission and grid expansion, power generation, oil and gas, nuclear energy, renewables, critical infrastructure, manufacturing, and the strategic Texas-Alberta partnership.

All proceedings are strictly off the record, non-attributable, and fully closed to the members of the press.

U.S. Energy Stream is the national energy intelligence leader engaging U.S. Senators and Members of U.S. Congress, senior government leaders, energy executives, and energy investors to successfully address energy policy of the Trump Administration. Our customers trust U.S. Energy Stream's mission to deliver intelligence and trusted access at the frontier of energy, technology, capital markets, and national security.

I look forward to welcoming you to the 7th Texas Energy Forum 2026 in Houston, TX.

Yours sincerely,

Anthony Livanios
CEO

7TH TEXAS ENERGY FORUM 2026

Distinguished Speakers Include

U.S. Congressman Pete Sessions (R-TX)
House Committee on Oversight and Accountability, Chairman of Subcommittee on Government Operations and the Federal Workforce and Co-Chairman of Delivering Outstanding Government Efficiency (DOGE) Caucus

U.S. Congressman Randy Weber (R-TX)
House Committee on Energy and Commerce, House Committee on Science, Space, and Technology

U.S. Congressman Paul Gosar (R-AZ)
House Committee on Natural Resources, Chairman, Subcommittee on Oversight and Investigations

U.S. Congressman Gary Palmer (R-AL)
House Committee on Energy and Commerce, Chairman, Subcommittee on Environment House Committee on Oversight and Accountability, DOGE Caucus

Commissioner Dawn Buckingham, M.D.
Texas General Land Commissioner, Austin, TX

Regional Administrator Scott Mason
U.S. Environmental Protection Agency (EPA)'s South-Central Region (Region 6)

Brian Jean
Minister of Energy and Minerals, Alberta, Canada

U.S. Congressman Chuck Fleischmann (R-TN)
House Committee on Appropriations, House Committee on Science, Space, and Technology, Chairman of Energy and Water Development, and Related Agencies Subcommittee, Co-Chairman of American Energy Dominance Caucus, Co-Chairman of Nuclear Cleanup Caucus

U.S. Congressman Andy Biggs (R-AZ)
House Committee on Oversight and Government Reform, House Committee on the Judiciary

U.S. Congressman Michael Cloud (R-TX)
House Committee on Appropriations, House Committee on Oversight and Government Reform

U.S. Congressman Adrian Smith (R-NE)
House Committee on Ways and Means

U.S. Congresswoman Mariannette Miller-Meeks (R-IA)
House Committee on Energy and Commerce, Chair, Conservative Climate Caucus

7TH TEXAS ENERGY FORUM 2026

Distinguished Speakers Include

U.S. Congressman Robert Onder (R-MO)
House Transportation and Infrastructure Committee

U.S. Congressman Keith Self (R-TX)
House Committee on Science, Space, and Technology, House Committee on Foreign Affairs, Vice Chair - Chairman of Subcommittee on Europe

U.S. Congressman Morgan Luttrell (R-TX)
House Armed Services Committee

U.S. Congressman Nathaniel Moran (R-TX)
House Committee on Ways and Means

Cassidy DeLine
CEO, Linea Energy, San Francisco, CA

Tom Brennan
CEO, CTO, & Co-Founder, Sol-Ark, Allen, TX

Sam Thigpen
Founder and CEO, Sapphire Gas Solutions, Conroe, TX

Bryan Didier
Partner and Managing Director, Renewable Energy, MONARCH PRIVATE CAPITAL, Overland Park, Kansas

Poe Leggette
Partner, Baker & Hostetler LLP, Houston, TX

Brett A. Cope
Chairman, President & Chief Executive Officer, Powell Industries, Houston, TX

Charlie Beecherl
CEO, WTG Energy, Dallas, TX

Jordan Solomon
President and CEO, Ecostrat, Plymouth, Michigan

7TH TEXAS ENERGY FORUM 2026

Distinguished Speakers Include

Sanjay Bishnoi
CEO, Entropy, Calgary, Alberta

Stephen Hightower I
CEO, Founder and President
Hightower Petroleum Co.,
Middletown, Ohio

Megan Williams
Senior Director of Government
Relations, Deep Fission

KaLeigh Long
CEO, Westwin Elements, Oklahoma
City, OK

Howard Crosby
CEO, LGX Energy Corp., Palm
Desert, California

Paul Dawson
President and CEO, OneH2, Inc.,
Hickory, NC

Anthony Livanios
CEO, U.S. Energy Stream, Houston,
TX

7TH TEXAS ENERGY FORUM 2026

Main Topic:

AI Runs on Texas Energy: How Texas and Alberta Are Powering the AI Revolution

Key topics to be addressed:

Texas & Alberta Energy Leadership

- Texas Energy Leadership in the Age of Artificial Intelligence
- The Texas-Alberta Advantage: Powering North America's AI Future
- Energy Abundance as America's Competitive Advantage in the AI Race
- North American Energy Partnerships: Strengthening Security and Economic Growth
- The Strategic Role of Alberta in Supporting U.S. Energy and AI Infrastructure
- Congressional and State Leadership in Shaping America's Energy Future
- Permitting Reform, Trade Policy, and Infrastructure Development for the AI Economy
- Deregulation & Prosperity: Texas as the Model for National Energy Growth

AI, Data Centers & Energy Infrastructure

- Powering the AI Revolution: Energy Infrastructure, Strategic Advantage, and Global Competition
- Data Centers and the Future of Power Demand
- Electric Utilities at the Center of the AI Economy
- Grid Modernization, Transmission Expansion, and Energy Reliability
- AI-Driven Energy Management: Optimizing Power Systems and Infrastructure
- Digital Innovation for Faster Permitting, Deployment, and Grid Resilience
Semiconductors, Advanced Manufacturing, and America's Technology Leadership

7TH TEXAS ENERGY FORUM 2026

Key topics to be addressed:

Oil, Natural Gas & LNG

- Natural Gas: The Fuel Behind the AI Revolution
- Texas Oil & Gas Leadership in a New Era of Energy Demand
- AI, Automation, and Innovation in Oil & Gas Operations
- U.S. LNG Exports and Global Energy Leadership in a Volatile World

Renewable Energy, Nuclear & Clean Energy Technologies

- Solar, Wind, and Battery Storage in the Age of Artificial Intelligence
- Making U.S. Clean Energy Globally Competitive Through AI and Innovation
- Low-Carbon and Sustainable Aviation Fuels: Strategic Roles in Energy Security
- Advanced Nuclear Energy: Powering the Next Generation of AI Infrastructure
- Small Modular Reactors and America's Energy Future
- Building an All-of-the-Above Energy Strategy for Economic Growth
- Hydrogen, Carbon Management, and Emerging Energy Technologies
- Critical Minerals and Rare Earths: Securing Strategic Supply Chains

Energy Finance, Manufacturing & Infrastructure

- Unlocking Capital for the AI and Energy Economy
- Infrastructure Acceleration: Technology-Driven Regulatory Streamlining
- Public-Private Partnerships in Powering the Next Decade of U.S. Energy
- Advanced Manufacturing, Reshoring, and Industrial Growth

Geopolitics, National Security & Global Competition

- The AI Race with China: Why Energy Will Determine the Winner
- Iran, the Strait of Hormuz, and Risks to Global Energy Markets
- North American Energy Security in an Era of Geopolitical Volatility
- Securing Energy Supply Chains for the AI and Manufacturing Revolution
- Who Powers AI Wins: Energy, Innovation, and American Leadership

7TH TEXAS ENERGY FORUM 2026

Schedule

SCHEDULE

Wednesday, August 26th, 2026

07:40 - 08:40	Welcome Breakfast
08:40 - 10:00	Session 1
10:00 - 10:30	Networking Coffee Break
10:30 - 12:00	Session 2
12:00 - 1:00	Luncheon
1:00 - 2:30	Session 3
2:30 - 3:00	Networking Coffee Break
3:00 - 5:00	Session 4

Thursday, August 27th, 2026

07:40 - 08:40	Welcome Breakfast
08:40 - 10:00	Session 1
10:00 - 10:30	Networking Coffee Break
10:30 - 12:00	Session 2
12:00	End of the Forum

***Please note it may be necessary to alter the content or timing of the program or its speakers**

The Forum is by invitation only. It is a private, closed door, off-the record, non-attribution, and non-dissemination meeting, closed to members of the press.

Sol-Ark

Sol-Ark® enables the most reliable, innovative, and affordable energy storage solutions to power families and businesses.

Over ten years ago, our CEO and CTO, Tom Brennan, founded Sol-Ark® with a mission to make the most reliable, innovative, and affordable solar storage solutions to power families and businesses.

After traveling the world and doing extensive product research, the conclusion was the current energy storage solutions were cumbersome, expensive, overly complex, and offered minimal power capability. Tom saw the opportunity to disrupt the category through innovation and technology.

Today Sol-Ark® is a global energy technology leader with over 6 generations of hybrid inverters. Powered by a vast ecosystem comprising thousands of distributors, installers, EPCs, integrators, and battery manufacturers, Sol-Ark® is transforming energy resilience for homes and businesses.

LINEA ENERGY

Linea Energy is an Independent Power Producer changing the status quo of how clean energy is developed and financed to rapidly increase the speed of deployment.

Linea has an experienced and driven team. We're scaling quickly to become a transformational leader in the development and ownership of clean energy infrastructure. By leveraging best-in-class development capabilities and active risk management, we consistently create better results for partners and communities.

Government of Alberta

The Government of Alberta is one of the largest employers in Alberta with over 27,000 employees throughout the province. We are an award winning organization that values respect, accountability, integrity, and excellence. Our employees share a common vision of proudly working together to build a stronger province and make a positive and lasting difference in the lives of Albertans. The people of Alberta enjoy a very high quality of life, including the lowest overall taxes in Canada.

Alberta energy has unique advantages and great potential. We have a diverse and strategic resource portfolio, with vast energy reserves.

Alberta has the fourth-largest proven oil reserves in the world, 9% of total proven global oil reserves, where approximately 99% of these reserves are in the oil sands. Between 2011 and 2019, overall average oil sands emission intensity in Alberta decreased by 22%. With additional technology, GHG intensity can be further reduced by up to 20% by 2030. Canada is in the top five of natural gas producers in the world – two-thirds of which come from Alberta. Alberta's abundant natural gas reserves can meet Canadian demand for the next 200 years.

MONARCH PRIVATE CAPITAL

Monarch Private Capital is a pioneer of investment fund management. Since inception, our investments have profoundly impacted their communities, transforming neighborhoods, creating jobs and advancing economies across the United States.

Monarch Private Capital was founded in 2005 as a partnership between an Atlanta based low-income housing developer, Robin Delmer, and a high-net-worth family office tax advisor, George Strobel. Monarch provides investment opportunities in renewable energy affordable housing, and historic rehabilitation funds. Monarch is known for developing customized structuring solutions enabling its fund investors to participate in defining investment parameters to meet their unique financial, tax, and treasury objectives. Our focus is to provide innovative capital solutions to our core sectors: renewable energy, low-income housing, and historic rehabilitation, as well as the entertainment industry.

Monarch Private Capital is headquartered in Atlanta and has regional offices in Charlotte, Sarasota, St. Louis and Springfield, Missouri. Additionally, Monarch has tax credit directors located in Austin, Baltimore, Los Angeles, Chicago, Birmingham and Nashville.

Sapphire Gas Solutions

Sapphire Gas Solutions is a top tier service provider in the virtual pipeline industry. With decades of experience providing innovative natural gas solutions, our team is ready to meet your needs and give you the best possible results.

In 2020, Thigpen Solutions and Blue Roads Solutions merged to offer leading mobile and off-pipe natural gas solutions nationwide. With natural gas service roots going back to 2005, Thigpen Solutions, and Thigpen Energy, were originally focused on midstream services and support. The addition of mobile gas solutions in 2010 forever changed the company's path and set it on a course to being an industry leader in mobile LNG and CNG service across the United States.

Our mission is to ensure the safe delivery of natural gas when pipeline infrastructure is constrained or not available. With over 60 years of experience in natural gas service and transportation, our management team is committed to providing turnkey solutions that promote safety and reliability. From initial procurement to remote monitoring, we pride ourselves in offering the highest level of customer service to every client, regardless of industry or application. 7TH TEXAS ENERGY FORUM 2026

August 26 & 27, 2026 | Petroleum Club Houston, TX

VENUE

Petroleum Club of Houston

Over 75 Years of Tradition

The Petroleum Club of Houston is the consequence of a vision, of a vigorous effort, and of a substantial accomplishment. The accomplishment is the creation of one of the nation's finest and most distinctive private clubs, towering high above Houston's commercial avenues.

The vision was shared by Wilbur Ginter, Howard C. Warren, and Harris Underwood and their efforts crystallized on January 31, 1946. The inspiration for our landmark world-class Club was built from oil industry ingenuity and now through many generations, the Club combines its synergy with memberships which include energy industry professionals; medical, legal, and business professionals; professional women; and growth with young professionals.

On December 15, 1951, the Club was formally opened for business atop the Rice Hotel in downtown Houston. Over the next decades, our Club gained an international reputation for fine food and excellent service, with guests and members from around the world.

In January 2015, the Petroleum Club of Houston moved to the top of the Total Plaza, 35th floor, 1201 Louisiana Street, in central downtown Houston. Our versatile and significant Club continues its international appeal and sustains its growth in the expansive Houston community.
